

REMARKS

The Office issued a Notice of Non-Responsive Amendment on December 6, 2007. In the Notice, the Office requested that Applicant address the obviousness-type double patenting rejections found in the Office Action of June 26, 2007. Applicant herein files a proper terminal disclaimer in response to this Notice.

CONCLUSION

It is believed that each of these claims is allowable and furtherance to issuance is respectfully requested. If the Office's next anticipated action is to be anything other than issuance of a Notice of Allowability, Applicant respectfully requests a telephone call for the purpose of scheduling an interview.

Respectfully Submitted,
